

China Global Entrepreneurship Conference

September 24-26, 2010

Nanjing, China

Letter of Invitation

Dear colleagues,

We have good news! You are invited to the first China Global Entrepreneurship Conference, September 24-26, 2010 in Nanjing, China.

The China Global Entrepreneurship Conference (CGEC) is the first gathering of Chinese leading business and financial leaders, government decision makers and global entrepreneurs to discuss and explore together how these entrepreneurs can quickly start-up and grow new businesses in both the China and global market.

After 30 years of great success manufacturing goods for foreign brands, China is beginning to shift its pattern of economic development to include a greater emphasis on innovation, technology, and producing its own global brands. This provides enormous business opportunity for global entrepreneurs.

Bring your technology, innovation, concept or design, and find investors willing to finance your project, business leaders looking to partner with your enterprise, government leaders offering abundant resources aimed at business start-up and development, and companies eager to offer you job and internship opportunities.

Central to China's economy and innovative culture, our host city Nanjing, is an ideal platform to discover and explore new business opportunities from around China. Located in the heart of the Yangtze River delta, Nanjing is a hub of international and domestic commerce that attracts companies from all over the world. Home to more than 30 colleges and universities and more than 500 research institutions, Nanjing was chosen as China's model city for innovation and technology. These great advantages, in addition to the city's cosmopolitan charm, beautiful architecture and sophisticated cuisine, make it a perfect stage for our conference.

We look forward to seeing you in Nanjing!
